FOCC WEST LOTHIAN DAILY BLOG 2014

Tuesday 3rd June

Fire Station, Swimming and Magic!

A full day for the children today. After some concert prep it was all aboard to Coatbridge Fire Station where 20 new recruits were put through their paces learning how to search for a casualty whilst wearing a blanked out facemask and how to run out and connect hose together. Then followed by a quick 'turnout' in a fire engine, blue lights on and sirens blaring, to soak a daft fireman stuck in a cage 20ft up in the air.!

As if that wasn't enough water we then made the short journey to the Timecapsule Leisure Centre where after a quick lunch it was swim time.

The pool has slides, a wave machine, lazy river and a 'pirate ship' from where you can fire jets of water at people in the pool. To top it all there is a huge bucket which slowly fills then tips out onto the waiting crowd below, enough to knock you of your feet!

Once home it was glad rags on for the family meal at Uphall Golf Club with the magic show, certainly some tired kids (and 5 adults) ready for bed by the end.
