

Mon 8 June

## Crafts/Swimming/Dancing

After a busy weekend for many children and with some big days out (and hopefully warmer weather !) coming up this week we had a quieter entry to the week for the children. The day started with some crafts with the children preparing some gifts to hand out to host families later in the visit.

After a snack of yoghurt and nuts we made the short walk across the road to swimming pool. The children had lots of fun, but more importantly, thanks to Luda the great swimming teacher, the number of children who can now swim has risen from 3 to 9 and I am sure more will follow very soon. The life guards whistle was well used but not for the children. It was for the adults who were having lots of fun jumping around, as were the children.

We went back to the hall for some lunch to top up our energy levels for a fun afternoon. We were back in JHM Dance studio for the last time on this visit, completing our special Scottish dance for the concert. The children had great fun and the finished dance is very nice. Most of the children returned to the hall for games/crafts. The four children who will complete their time with us this year stayed behind at the dance studio and learned a special dance for them to say goodbye to. A great fun piece of music chosen by Kenny and a great dance put together by Jo and her team. The children learned it so quickly and cant wait to perform it at our concert. Bring your hankies 😊

To finish off the day we had a visit from Rita from Armadale Church who had made hats and scarfs for all the children. The children were delighted to be kitted out with such nice hats and scarfs, all hand made.

Well that's the third week of our programme started already, time flies so quickly.
