Daily Blog for the group visit ~ 2nd June to 30th June 2012

DAY 24 Monday 25th June - Falkirk Wheel

Today started quietly in the hall with some lessons and a snack before setting off along the motorway for Falkirk and the wheel. We had fun in the play area where we learned a little about how locks work and the Archimedes screws. Only two boys, Pasha & Vadzim, getting particularly enthusiastic to the extent they were soaked to the skin! However when we managed to get them a little drier we

went to the dry play area. Perhaps we should have missed out step one, where the children as usual let their hair down and had a great time on the climbing frames and chutes. Then all aboard, we set off on a narrow boat and into the gondola to be taken up on the wheel. An experience that you can only get in Scotland. We sailed along the short stretch of canal before turning and heading back down. A fantastic packed lunch was provided by Pat & Grace from the sandwich club in Falkirk. This was quickly followed by ice cream donated by Steve. Then

back to the hall for more snacks before some concert prep
