

Monday 31 August

Settle in, rules, M and Ds Scotlands Themepark

Monday saw the start of our activities programme.

The children played board games after they were drop off at "school" for the first time. It was great to see them playing together and settling in.

Then Yuliya and Lena had a short session on rules in the hall, outside and at home. Very important.

Another important thing was some games to help the children learn each others names as many of them didnt know each other until they came here.

Next up was snack before heading out on the minibus for our first big adventure In the meantime huge thanks to Grahams Dairies for our milk delivery and for supplying us with dairy products for the month for free.

In the afternoon we went to M and Ds Scotlands theme park.

Not a lot of commentary is required on the photos. The children had a picnic lunch and a huge amount of fun on the rides.

It was so nice to see all the children looking so happy, excited, settled and having such a good time together in the lovely Scottish weather.

Happy days. Great start to our activities programme.
