

Wed 10 June

Train/Deep Sea World/Combat

This morning the children went by train across the Forth Rail Bridge from Dalmeny to Inverkeithing, a short but, going by the ooo's and ahhh's, interesting journey with great views on a lovely sunny morning like today.

Those of us driving had the less interesting drive over the Forth Road Bridge and having picked everyone up at the station in Fife we headed to Deep Sea World. The children had a great time first of all meeting and touching a starfish then an Australian Bearded Dragon called Jack. Sveta showed her love of animals and was the most hands on with them, as opposed to Maksim who seemed a bit unsure coming face to face with a small dinosaur. They loved walking under the water with the huge sharks (akula) and other fish. They also loved the sea lion show. After lunch we went to Extreme Combat in Newbridge where we had 5 games of the laser tag combat games in blistering heat. Split into two teams, blue and red we had a couple of games of one team against the other then two games of capture the flag, where Vadzim and Dasha were successful for their teams in getting the others flag back to their base. Then it was an everyone for themselves. Not sure if the children or the adults, especially Ross, had more fun. Well done to all of them for keeping going. It was hot and tiring as the guns are quite heavy. We finished off our time together for today with a lovely cool ice lolly mmmmm ☺
