

Thur 11 June

Evening with sponsor

Tonight Kiryl and Vicka enjoyed a night out at the bowling courtesy of their sponsor. Getting your company to sponsor one of our children is a lovely thing to do and very rewarding to be involved in - Seeing your child grow and their health improve over the 5 years they are on our programme. If you sponsored a child we would give you some basic info and photos about the child and their home. We would give you updates on your child with pictures twice a year and best of all when the child is here in West Lothian we can bring them with an interpreter for a visit to your workplace or you can do what this sponsor has done and arrange a wee night out somewhere with some of your colleagues and their children. With our charity you get to see exactly where your money goes and what better feeling than to see your sponsorship money smiling right back at you in the delighted face of your sponsored child and you actually get to meet your child. These children are really deserving of our help and love and we are currently looking for more sponsors. If this is something that your company would like to do then please contact us.
