Lessons/Adventure Island Golf

In the morning the children were busy with their school work and only ventured out for a quick snack. Most had a very healthy appetite with clean plates all round. The milk is continuing to be a great hit with strawberry or chocolate flavouring in it.

The children have been learning English too on their visit and today they were learning numbers which would hopefully help their counting on this afternoons adventure

After lunch we piled in to the minibus for our trip to Adventure Golf Island in Dunfermline and their second trip over the Forth Road Bridge.

Once there we decided to have the boys in one group starting on the outside course and the girls on the inside. We seem to have some naturals with a few of the children getting a hole in one!

As well as the mini golf the children had a "treasure hunt" to find pictures of minions or elephants and receive a prize if they were successful.

A great time was had by all, with each child receiving their prize of a sweetie necklace, a certificate and a sticker.

Once back in the hall we had a small presentation of the certificates with great applause and smiles all round

We were one child short today, with Katia staying at home with a bit of a cold. Hope she is feeling better for our big adventure of the week tomorrow. Its gonna be fun
