## Lessons/Kelpies/Helix Park

Today was a fun day.

but started with lessons, and unfortunately Mathematics

Snack accompanied by strawberry or chocolate milkshake was very welcome at break time.

The children are feeling very relaxed in their new environment, maybe too relaxed as behaviour is starting to slip. so we have a talk again about behaviour and in particular a couple of incidents which will see some children sit out part of our afternoon activities for breaches of our rules they agreed to at the outset. You have to be cruel to be kind sometimes and be fair to all

Then after the rest of morning lessons we head to Helix park and the Kelpies for our packed lunch, which we had in the shadow of the beautiful sculptures of the Kelpies.

After lunch we walked to the other end of the park and played for ages on the play equipment. The children had a really great time with the place almost to themselves.

We returned to the hall for another wee snack and more milkshake which they have really taken to. I hope they all eat their dinners
