

FOCC WEST LOTHIAN DAILY BLOG 2013

Wednesday 12th June

Playbus and Roddinglaw

Wednesday morning and the play barn bus arrived at the hall where the children had a ball burning off energy until it was time to head off to the agricultural science centre at Roddinglaw,

The children were treated to a barbecue which they all enjoyed although Krystina was violently sick and had to be taken home.

We then went into the research centre where we learned about different foods and the children took part in a blindfold taste test to try and guess

what the foods were and took place in a quiz which they did very well at. All were given a goody bag and were told that they were better behaved and asked much more questions than their Scottish counterparts. They then headed back to the hall for concert practice. Thanks to Clare, Pat and Tommy for all their assistance.
